The Peerless® *PureFire*® Commercial Gas Extended Boiler Pressure Vessel Warranty

In addition to our Standard Warranty, PB Heat, LLC warrants the pressure vessel of this boiler for a period of twenty (20) years from the date of shipment when installed in accordance with PB Heat, LLC installation documentation and operated in accordance with the Installation, Operation and Maintenance Manual.

This warranty covers leaks in the pressure vessel including the tubes, supply and return manifolds, which from our inspection, are attributed to unequal or rapid expansion, typically referred to as "thermal shock" or stress cracking. This warranty does not cover damage or failures that are attributed, by our inspection, to corrosion, operation at low water level, accumulation of scale, sludge or dirt in the boiler, or other improper service, operation or neglect.

PB Heat, LLC's liability hereunder is limited to furnishing a replacement pressure vessel or component parts thereof, as deemed necessary by our inspection. PB Heat, LLC is not responsible for shipping, handling, installation and other costs, including all costs associated with the removal and disposition of the old pressure vessel or component parts. In no event shall PB Heat, LLC be responsible for any incidental, consequential or other damages, including, without limitation, any damages resulting from loss of use of the boiler.
