## Seminar Agenda

- 1 Choosing (sizing) the correct steam boiler
- 2 Steam boiler sizing — do's and don'ts
- 3 15 basic rules of proper steam system workings
- 4 One-pipe steam — air vents
- 5 Two-pipe steam — traps
- 6 Near boiler piping — piping kits
- 7 Boiler water level controls
- 8 Cleaning & skimming steam boilers

**Presenter:** Chuck Dunn of Peerless® Boilers will lead a steam discussion and touch on all the points above — a can't-miss session for anyone who works with steam systems.

This training is a great opportunity for installers, technicians, and contractors to sharpen their steam system knowledge directly from a Peerless® Boilers expert.
